4. Preliminary notification respecting intention to prospect for coal in any area and powers of competent authorities thereupon.—(1) Whenever it appears to the Central Government that coal is likely to be obtained from land in any locality, it may, by notification in the Official Gazette, give notice of its intention to prospect for coal therein.

(2) Every notification under sub-section (1) shall give a brief description of the land and state its approximate area.

(3) On the issue of a notification under sub-section (1), it shall be lawful for the competent authority and for his servants and workmen—

(a) to enter upon and survey and land in such locality;

(b) to dig or bore into the sub-soil;

(4) In issuing a notification under this section the Central Government shall exclude therefrom that portion of any land in which coal mining operations are actually being carried on in conformity with the provisions of any enactment, rule or order for the time being in force or any premises on which any process ancillary to the getting, dressing or preparation for sale of coal obtained as a result of such operations is being carried on or is in progress.

5. Effect of notification on prospecting licences and mining leases.—On the issue of a notification under sub-section (1) of section 4 in respect of any land—

(a) any prospecting licence granted to any person under the Mineral Concession Rules which authorises him to prospect for coal or any other mineral in the land shall cease to have effect; and

(b) any mining lease granted to any person under the Mineral Concession Rules shall, in so far as it authorises the lessee or any person claiming through him to undertake any operation in the land, cease to have effect for so long as the notification under that sub-section is in force.

6. Compensation for any necessary damage done under section 4.—(1) Whenever any action of the nature described in sub-section (3) of section 4 is to be taken, the competent authority shall, before or at the time such action is taken, pay or tender payment for all necessary damage which is likely to be caused, and in case of dispute as to the sufficiency of the amount so paid or tendered or as to the person to whom it should

be paid or tendered, he shall at once refer the dispute to the decision of the Central Government, and the decision of the Central Government shall be final.

(2) The fact that there exists any such dispute as is referred to in this section shall not be a bar to action under sub-section (3) of section 4.

7. Power to acquire land or rights in or over land notified under section 4.—(1) If the Central Government is satisfied that coal is obtainable in the whole or any part of the land notified under sub-section (1) of section 4, it may, within a period of two years from the date of the said notification or within such further period not exceeding one year in the aggregate as the Central Government may specify in this behalf, by notification in the Official Gazette, give notice of its intention to acquire the whole or any part of the land or of any rights in or over such land, as the case may be.

(2) If no notice to acquire the land or any rights in or over such land is given under sub-section (1) within the period allowed thereunder, the notification issued under sub-section (1) of section 4 shall cease to have effect on the expiration of three years from the date thereof.

8. Objections to acquisition.—(1) Any person interested in any land in respect of which a notification under section 7 has been issued may, within thirty days of the issue of the notification, object to the acquisition of the whole or any part of the land or of any rights in or over such land.

Explanation.—It shall not be an objection within the meaning of this section for any person to say that he himself desires to undertake mining operations in the land for the production of coal and that such operations should not be undertaken by the Central Government or by any other person.

(2) Every objection under sub-section (1) shall be made to the competent authority in writing, and the competent authority shall give the objector an opportunity of being heard either in person or by a legal practitioner and shall, after hearing all such objections and after making such further inquiry, if any, as he thinks necessary, submit the case for the decision of the Central Government together with the record of the proceedings held by him and a report containing his recommendations on the objections.

(3) For the purposes of this section, a person shall be deemed to be interested in land who would be entitled to claim an interest in compensation if the land or any rights in or over such land were acquired under this Act.

9. Declaration of acquisition.—(1) When the Central Government is satisfied, after considering the report, if any, made under section 8 that any land or any rights in or over such land should be acquired, a declaration shall be made by it to that effect:

Provided that, where the declaration relates to any land or to any rights in or over land belonging to a State Government which has or have not been leased out, no such declaration shall be made except after previous consultation with the State Government.

(2) The declaration shall be published in the Official Gazette, and—

(a) in any case where land is to be acquired, shall state the district or other territorial division in which the land is situate and its approximate area; and, where a plan shall have been made of the land, the place where such plan may be inspected;

a copy of every such declaration shall be sent to the State Government concerned.

10. Vesting of land or rights in Central Government.—

(1) On the publication in the Official Gazette of the declaration under section 9, the land or the rights in or over the land, as the case may be, shall vest absolutely in the Central Government.

(2) Where the rights under any mining lease granted by a State Government to any person are acquired under this Act, the Central Government shall, on and from the date of such vesting, be deemed to have become the lessee

of the State Government as if a mining lease under the Mineral Concession Rules had been granted by the State Government to the Central Government, the period thereof being the entire period for which such a lease could have been granted by the State Government under those rules.

11. Power of Central Government to direct vesting of land or rights in a Government company.—(1) Notwithstanding anything contained in section 10, the Central Government may, if it is satisfied that a Government company is willing to comply, or has complied, with such terms and conditions as the Central Government may think fit to impose, direct, by order in writing that the land or the rights in or over the land, as the case may be, shall, instead of vesting in the Central Government under section 10 or continuing to so vest, vest in the Government company either on the date of publication of the declaration or on such other date as may be specified in the direction.

(2) Where the rights under any mining lease acquired under this Act vest in a Government company under sub-section (1), the Government company shall, on and from the date of such vesting, be deemed to have become the lessee of the State Government as if a mining lease under the Mineral Concession Rules had been granted by the State Government to the Government company, the period thereof being the entire period for which such a lease could have been granted by the State Government under those rules; and all the rights and liabilities of the Central Government in relation to the lease or the land covered by it shall, on and from the date of such vesting, be deemed to have become the rights and liabilities of the Government company.

12. Power to take possession of land acquired.—The competent authority may, by notice in writing, require any person in possession of any land acquired under this Act to surrender or deliver possession of the land within such period as may be specified in the notice, and if a person refuses or fails to comply with any such notice, the competent authority may enter upon and take possession of the land, and for that purpose may use or cause to be used such force as may be necessary.

13. Compensation for prospecting licences ceasing to have effect, rights under mining leases being acquired, etc.—(1) Where a prospecting licence ceases to have effect under section 5, there shall be paid to the person interested compensation, the amount of which shall be a sum made up of all items of reasonable and *bona fide* expenditure actually incurred in respect of the land, that is to say,—

- (i) the expenditure incurred in obtaining the licence;
- (ii) the expenditure, if any, incurred in respect of the preparation of maps, charts and other documents relating to the land, the collection from the land of cores or other mineral samples and the due analysis thereof and the preparation of any other relevant records or material;
- (iii) the expenditure, if any, incurred in respect of the construction of roads or other essential works on the land, if such roads or works are in existence and in a usable condition;
- (iv) the expenditure, if any, incurred in respect of any other operation necessary for prospecting carried out in the land.

(2) Where the rights under a mining lease are acquired under this Act, there shall be paid to the person interested compensation, the amount of which shall be a sum made up of the following items, namely,—

- (i) if the lease was granted after prospecting operations had been carried out in respect of the land under a prospecting licence, the sum of all items of reasonable and *bona fide* expenditure actually incurred with respect to the matters specified in clauses (i), (ii), (iii) and (iv) of sub-section (1) before the date of the lease;

Provided that where two or more leases had been granted in relation to any land covered previously by one prospecting licence, only so much of the expenditure aforesaid as bears to the total expenditure the same proportion as the area under the mining lease in respect of which

the rights have been acquired bears to the total area covered by the mining leases shall be payable under this clause;

- (ii) any reasonable and *bona fide* expenditure of the nature referred to in clauses (i), (ii), and (iii) of sub-section (1) actually incurred in relation to the lease, together with the *salami*, if any, paid for obtaining the lease;
- (iii) the expenditure, if any, incurred by way of payment of dead-rent or minimum royalty during any year or years when there was no production of coal;
- (iv) interest on any such expenditure referred to in clauses (i), (ii) and (iii) as has actually been incurred during the period commencing from the date of the lease and ending with the year in which the rights under the lease are acquired, interest being calculated in the following manner, that is to say,—

interest at the rate of five per centum per annum in respect of the expenditure incurred during each calendar year for the first five years commencing from the year in which such expenditure was incurred *plus* interest at the rate of four per centum per annum in respect of each subsequent year after the expiration of the first five years and ending with the year in which the rights under the lease are acquired:

Provided that the total sum payable under this clause shall not exceed one-half of the total amount referred to in clauses (ii) and (iii).

(3) Where the rights under a mining lease acquired under section 9 relate only to a part of the land covered by the mining lease, the amount of compensation payable shall be such as bears to the total compensation which would have been payable if the rights of the mining lessee in respect of the entire land had been acquired, the same proportion which the area of the land in respect of which the rights are acquired bears to the total area of the land covered by the mining lease.

(4) Where a mining lease ceases to have effect for any period under clause (b) of section 5, there shall be paid by way of compensation for the period during which the lease so ceased to have effect, a sum equivalent to five per centum of any such expenditure as is referred to in clauses (i) and (iii) of sub-section (2) for each year during which the lease remains suspended.

(5) Where any land is acquired under section 9, there shall be paid compensation to the person interested the amount of which shall be determined after taking into consideration—

- (a) the market value of the land at the date of the publication of the notification under sub-section (1) of section 4;

*Explanation.*—The value of any minerals lying in the land shall not be taken into consideration in determining the market value of any land;

- (b) the damage sustained by the person interested, by reason of the taking of any standing crops or trees which may be on the land at the time of the taking possession thereof;
- (c) the damage, if any, sustained by the person interested, at the time of taking possession of the land, by reason of severing such land from other land;
- (d) the damage, if any, sustained by the person interested, at the time of taking possession of the land, by reason of the acquisition injuriously affecting his other immovable property in any other manner, or his earnings;
- (e) if, in consequence of the acquisition of the land, the person interested is compelled to change his residence or place of business, the reasonable expenses, if any, incidental to such change; and
- (f) the damage, if any, *bona fide* resulting from diminution of the profits of the land between the time of the publication of the notification under sub-section (1) of section 4 and the time of the publication of the declaration, under sub-section (2) of section 9.

(6) Where any operation carried on by or on behalf of the Central Government in the exercise of any powers conferred by this Act causes or is likely to cause damage to the surface of any land or any works thereon and in respect thereof no provision for compensation is made elsewhere in this Act, the competent authority shall pay or tender payment for all such damage, and in case of dispute as to the sufficiency of the amount so paid or tendered or as to the person to whom it is to be paid or tendered, he shall refer the dispute to the decision of the Tribunal.

(7) No compensation under this section in relation to maps, charts and other documents shall be paid unless the person to whom it is payable has delivered to the prescribed authority all the maps, charts and other documents.

**14. Method of determining compensation.**—(1) Where the amount of any compensation payable under this Act can be fixed by agreement, it shall be paid in accordance with such agreement.

(2) Where no such agreement can be reached, the Central Government shall constitute a Tribunal consisting of a person who is or has been or is qualified to be a judge of a High Court for the purpose of determining the amount.

(3) The Central Government may in any particular case nominate a person having expert knowledge in mining to assist the Tribunal, and where such nomination is made, the person or persons interested may also nominate any other person for the same purpose.

(4) At the commencement of the proceedings before the Tribunal the Central Government and the person interested shall state what in their respective opinions is a fair amount of compensation.

(5) The Tribunal shall, after hearing the dispute, make an award determining the amount of compensation which appears to it to be just, and specify the person or persons to whom the compensation shall be paid, and in making the award the Tribunal shall have regard to the circumstances of each case and to the foregoing provisions of this Act with respect to the manner in which the amount of compensation shall be determined in so far as the said provisions or any of them may be applicable.

(6) Where there is a dispute as to the person or persons entitled to compensation and the Tribunal finds that more persons than one are entitled to compensation, it shall apportion the amount thereof among such persons and in such manner as it thinks fit.

(7) Nothing in the Arbitration Act, 1940 (10 of 1940) shall apply to any proceedings under this section.

**15. Costs.**—Every award made by the Tribunal shall also state the amount of costs incurred in the proceedings before it and by what persons and in what proportions they are to be paid.

**16. Interest on awards.**—If the sum which in the opinion of the Tribunal ought to have been awarded as compensation is in excess of the sum which the Central Government has stated to be a fair amount of compensation, the award of the Tribunal may direct that the Central Government shall pay interest on such excess at the rate of five per centum per annum from the date on which it became payable to the date of payment of such excess.

**17. Payment of compensation.**—(1) Any compensation payable under this Act may be tendered or paid to the persons interested entitled thereto, and the Central Government shall pay it to them unless prevented by some one or more of the contingencies mentioned in sub-section (2).

(2) If the persons interested entitled thereto shall not consent to receive it or if there be any dispute as to the sufficiency of the amount of compensation or the title to receive it or the apportionment thereof, the Central Government shall deposit the amount of compensation with the Tribunal:

Provided that any person admitted to be interested may receive such payment under protest as to the sufficiency of the amount:

Provided further that no person who has received the amount otherwise than under protest shall be entitled to take any matter under this Act before the Tribunal.

(3) When the amount of compensation is not paid or deposited as required by this section, the Central Government shall be liable to pay interest thereon at the rate of five per centum per annum from the time the compensation became due until it shall have been so paid or deposited.

**18. Prospecting and mining to be done by Central Government in conformity with the Mineral Concession Rules.**—Where prospecting is done under this Act by or on behalf of the Central Government in any land situate within the jurisdiction of a State Government or where the Central Government or a Government company has become the lessee of a State Government in respect of any land under this Act, the terms and conditions under which the prospecting can be done or rights under the lease exercised shall, as far as may be, be the same as the terms and conditions applicable to prospecting licences and mining leases under the Mineral Concession Rules; and in case of doubt or dispute, shall be settled by arbitration or in such other manner as the Central Government and the State Government may decide.

**19.
